

Akston Biosciences has an immediate opening: **Maintenance Mechanic II – Manufacturing Facilities**

Title Maintenance Mechanic II – Manufacturing Facilities

Reporting

- Reports to the Supervisor of Manufacturing Facilities

Primary Duties

- Ensure the efficient maintenance and reliable operation of the process, HVAC and utility equipment needed to support a GMP manufacturing facility including supporting site laboratories.

Other Responsibilities & Skills

- Conduct facility monitoring, alarm and emergency response, routine and non-routine maintenance activities to support facility and warehouse operations. This includes, but is not limited to: air handlers, generators, roof-top-units, humidifiers, process and utility equipment.
- Perform general facility repairs to other areas of the company that are not governed by GMPs. This includes, but is not limited to: R&D and PD labs, drywall repairs, painting, and other needs throughout the company.

Qualifications

- High school diploma or equivalent plus 3-5 years of related industry experience with 2-4 years of cGMP plant operations experience; certification(s) preferred.

Experience

- Possess prior work experience in a GMP, biotechnology and/or FDA regulated environment
- Basic knowledge of HVAC, plumbing, electrical systems, and general carpentry & repair

Compensation Title and pay commensurate with skills and experience, eligibility for company benefit plans.

Other

- Required to carry a mobile phone at all times and be on call as required to support operations and participate in off-hour emergency coverage as needed
- Must be able to climb a ladder, reach, bend and lift loads up to 50 pounds
- Must live within commuting distance of Beverly, MA

Company

Akston Biosciences Corporation invents, develops, and manufactures breakthrough protein therapeutics for Companion Animal Health. We leverage our novel Ambifect™ Fc-fusion platform to develop and manufacture new classes of therapeutics. Additionally, Akston serves as a Contract Development and Manufacturing Organization (CDMO) for other Animal Health companies through production and manufacturing facilities that are dedicated to Animal Health. Our facilities, along with our research and process development laboratories, are located in Beverly, Massachusetts.

Akston has an immediate opening for a **Maintenance Mechanic II – Manufacturing Facilities** position in Beverly, MA. For more information, see www.akstonbio.com.
